Maybe teaming up with other cities to pursue a partnership for recreational use.

GEM Public Sector Services

This company conducted the market study for the KY 17 Corridor and then the land use study. Covington and Park Hills are conducting a study along Dixie Highway and our city has been invited to be included in this study and get a lower rate for all cities involved. Doug Harnish from GEM Public Sector Services and Dennis Gordon from NKAPC were in attendance to answer any questions Council might have to use this study as a development tool. Mayor Nienaber stated that he thought we should consider this to look at the demographics and trends as a potential market draw. This could identify opportunities for new development. Mr. Hatter stated that he thought this would give us data to back up reasoning to market areas to future development. Discussion followed. If all three cities are included in the study, the cost to the City of Fort Wright would be \$9600.00. We will discuss this more at the caucus meeting and have the committee in place.

Update on Power Outage

On September 14, 2008 we had a very serious wind event from the recent hurricanes in the South. Numerous calls were received and power outages lasted as long as a week in some areas. Thanks to all City personnel, Duke Energy and Rumpke for their hard work in helping residents through this tough period.

New Roof Public Works Building

This roof was replaced because of the wind event. The insurance paid for all of this except the deductible. Mr. Maloney advised there was also some tree damage and electric service damage at the museum. This will all be turned in for whatever re-imbusement we can collect.

Department Reports

Fire/EMS Chief Schewe reported that the Parks and Recreation Board will be hosting a Halloween Party on November 1, 2008 for children from 1-3PM.

The Saint Vincent De Paul Society will place a barrel in the lobby to collect coats for the needy until October 15, 2008.

Mayor Nienaber thanked everyone for all of their help during the wind event.

Police Chief Dan Kreinest reported that we have had continuing problems with car break-ins. Please lock your vehicles and do not leave valuables for anyone to see. Anything suspicious, please call the police. Residents have been concerned regarding people going through trash cans, because of identity theft. Some of the regulars that do this in the City are known to the police and are okay. Mr. Hatter suggested putting something in the newsletter about shredding personal information.

Public Works Director Tim Maloney reported that the park project is moving along. The deadline of October 9th will be extended. We hope to have this finished by the end of the month.

Saint Agnes Circle and Vidot Court have been having video done of the main lines by the contractor, Lonkard Construction. We may be able to move the storm lines up and save some money. Sanitation District will be installing pipe soon.
